Description

Individuals across Algoma are able to access a range of mental health and addictions support services through one organization. The Roadmap to Wellness: a plan to build Ontario's mental health and addictions system (2020) has identified the system challenges related to "Ontarians not knowing what services exist or where or how to get help" and identifies improving access as a priority. Our new access model will allow clients to be immediately linked with a staff person who will connect the individual to the appropriate mental health and addictions support services.
